EXAMINER AMENDMENT

1. The application has been amended as follows:

Cancel claims 20-39.

Reason for this change – in Applicant's response dated 27 July 2005, claims 20-39 were omitted from the listing of claims. Applicant's remarks indicate that these claims are to be cancelled.

This amendment was authorized by David Morasch (42,905) via telephone on 22 August 2005.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance, which has been copied from the Final Rejection, dated 12 July 2005:

Regarding claims 40, 45, and 47, Carlstrom discloses deriving a recognition value representative of a digital signal such that perceptually distinct digital signals result in recognition values that are approximately independent of one another and perceptually similar digital signals result in proximally similar recognition values, as explained above. However, Carlstrom does not disclose that deriving the recognition value includes the steps of: transforming, quantizing, geometric-region-growing, and generating, as claimed. For this reason, claims 40, 45, and 47 are allowable.
